Activity, 107, 115, 127, 129, 132, 134, 191, 317, 321
Adolescence, 281, 283, 289
Adult aging, 18, 24
Adulthood, 281, 289
Age, 3, 12, 99, 107, 127, 129, 132, 134, 145, 149, 191, 209, 243, 281, 313, 325
Age differences, 31, 38, 81, 83, 85, 87, 293, 298, 303
Aggression, 315, 318, 320
Aging, 92, 95, 308, 310
— and memory, 71, 74, 78
— mice, 43
— research, 121, 125
Analysis of covariance, 121, 125
Antihypertensive medication, 214, 223
Assessment techniques, 29, 33
Attitude types, 268, 271, 275
Avoidance, 145, 146, 151, 153

Behavior, 145, 162, 191, 197, 203
Behavioral development, 43, 45

Cardiac hypertrophy, 252, 259, 261
Central processing speed, 18, 23
Cognition, 4, 12
Cognitive performance in old age, 168, 171, 176, 179
Confidence intervals, 309
Correlated covariate, 121, 124
Corticosterone, 100, 107, 110, 112, 113, 116, 127, 130, 132, 134

Dichoptic masking, 17, 18, 24
Discrimination learning processes, 243, 248

Early experience, 229, 232, 239
EEG, 12, 94, 96, 107, 110, 113, 117
Emotionality, 316, 318, 321
Enzymes, 99, 137, 138
Evoked potential, 3, 10, 13
Exploration, 127, 129, 132, 134

Factor analysis, 284
Feeding, 314, 317, 320

Genetics, 41, 55, 145, 157, 162, 164
Genetic selection, 251, 253, 257

Hamster, 91, 92, 94
H/B ratio, 255, 259
Heart weight, 255, 259
Hippocampus, 91, 94, 95, 102, 103
Human, 3, 5, 13
Hypertension, 209, 211, 223, 251, 258, 260

Immobilization, 127, 129, 132, 134
Inbred strains, 158
Instructional set, 57, 59, 61
Intellectual development, 169, 183
Item recognition, 243, 247

Laterality, 293, 301
Latitude of choice, 27, 29, 32
Learning, 145, 316, 319, 321
Life satisfaction, 27, 30, 32, 35, 81, 83, 85, 87

Malnutrition, 53
Maternal behavior, 229, 232, 238
— responsiveness, 63, 66
Mating, 315, 318, 320
Memory, 3, 12
— organization, 71, 74, 75, 77
Mouse, 191, 251, 313
Mutants, 159

Neonatal ultrasounds, 63, 69
Nonorthogonal ANOVA, 123

Old age, 281. 289
Organelles, 139

Pacing variable, 307, 310
Paired associates, 307, 310
Personal autonomy, 32
— space, 57, 59, 61
Physiological processes, 137, 141
Plasma renin activity, 210, 217
Postnatal reflex, 43
Prenatal conditioning, 63, 65
Processing of right and wrong items, 243, 249

Rats, 64, 91, 93, 94, 229, 231, 326
Reaction time, 209, 213, 215, 293, 300, 302
Recognition memory process, 243, 249
Recombinant inbred strains, 160
Relevant *v* irrelevant information, 243, 248
Retirement attitudes, 267, 271, 273
— planning programs, 268, 271
Retention, 148

Same-different judgement, 293, 297
Self concept, 27, 32, 35, 81, 84, 85, 281, 289
— discrepancy, 81, 83, 85, 87
Sentence retention, 71, 74, 78
Sleep patterns, 107
Social breakdown syndrome, 269, 274
Stepwise regression, 124
Stimulus clearing time, 18, 24
Strain, 191, 203, 313
Stress, 107, 116, 127, 129, 134
— cold, 229, 237

Terminal drop, 169, 177, 178, 180
Theta, 91, 93, 94
Tissues, 139
Total time principle, 307, 310

Ultrasounds, 229, 231

Visual perception, 293, 296, 299
— persistence, 18, 24

Work satisfaction, 267, 270, 275
